## *Crystal Clear Microdermabrasion*

The choice of celebrities takes years off your complexion by gently exfoliating the outer layers of skin. Because its a safe and controlled method of skin resurfacing, the treatment can be used to solve a wide range of skin concerns on the face.

Microdermabrasion provides immediate and visable results for ageing skin, lines and wrinkles, open pores, blackheads, pigmentation, blemish scars, acne scars and so much more. You'll see the difference after just one treatment, however for more problematic skin a course of treatments may be required.

With regular treatments, the skin increases its collagen and elastin formation, giving you a naturally firmer and rejuvenated appearance. Building on this, the gentle vacuum action gives the facial muscles a mini workout each time, providing an immediate lifting effect and ongoing improvement in tone.
